SALT LAKE CITY, Utah (News4Utah)- As we head into the second week of the legislative session we check in with the American Civil Liberties Union of Utah for a look at some of their biggest priorities during the session.

Marina Lowe, with the ACLU of Utah stops by Inside Utah Politics to discuss some of the key topics and bills that are at the top of their priority list.

"Paid family leave, it sort of takes it's cue from the new federal tax plan that was just passed and provides a tax credit to employers that are willing to provide paid family leave" said Lowe. She also speaks on House bill 205, the down syndrome abortion bill as well as the death penalty.
