Students around the country are turning the heartbreaking school shooting in Parkland, Florida, into an inspiring push for change. Plans for coordinated student walkouts on March 14th have been making national news and have already spurred disciplinary threats from some school administrators.

That's why it's so important that everyone – especially students and allies – learns about students' rights.

Join the ACLU of Utah on Facebook Live for a Utah-specific discussion on Students' Rights as students prepare for walkouts.

This event will be live streamed on the ACLU of Utah Facebook page
